WHEREAS, the City of Rector is authorized under Arkansas Code Annotated § 14-56-401 et seq. to adopt and amend zoning regulations governing the location and use of structures, including signs, for the purpose of protecting the public health, safety, and welfare; and

WHEREAS, the City of Rector has adopted the City of Rector Comprehensive Land Use Plan (2025–2030) which supports the regulation of commercial development and signage in a manner that promotes local businesses, protects public investment in infrastructure, and avoids unnecessary regulatory complexity; and

WHEREAS, the City has experienced instances of sign placement near or within public rights-of-way and along highway corridors that raised safety, enforcement, and consistency concerns under the existing zoning regulations; and

WHEREAS, the City’s existing zoning regulations do not clearly distinguish between permitted on-premises signage and prohibited off-premises advertising, resulting in enforcement challenges and the need for discretionary review; and

WHEREAS, the Planning Commission conducted a duly noticed public hearing on May 12, 2026, to receive public input regarding proposed sign regulations; and

WHEREAS, *members of the public were present at said hearing and were afforded the opportunity to comment, and public input was received and considered by the Planning Commission; and*

WHEREAS, the Planning Commission, after review and consideration of the Comprehensive Land Use Plan, existing conditions within the City, and public comment, has recommended adoption of simplified and uniform sign regulations to the City Council; and

WHEREAS, the City Council finds that clear, uniform sign regulations reduce the need for discretionary review and improve consistent enforcement;
